

## ArChine Synchain POE 45K

### Fully synthetic high-temperature chain oil

#### DESCRIPTION

ArChine Synchain POE 45K product is synthetic POE high temperature lubricants designed primarily for high temperature equipment, such as oven chains and tenter frame ovens, as well as paint and ceramic curing ovens. Satisfactory performance can also be expected in applications involving bearing lubrication. Formulated from a quality synthetic base stock and additive system, ArChine Synchain POE 45K provides the following performance benefits.

- Excellent high temperature oxidation and thermal stability for prolonged lubricant life
- Extremely low volatility resulting in less oil consumption
- Superior antiwear properties for reduced chain drag
- Does not form carbon residue as petroleum products do
- Maintain a clean operating environment for frame rails and chains

#### TYPICAL PROPERTIES

Appearance	Tawny, clear liquid
Viscosity @40°C, cSt	43600
Viscosity @100°C, cSt	2060
Viscosity index	289
Density@20°C	0.94
Flash point, °C	328
Pour point, °C	0
Copper corrosion, 3h/100°C	1

These technical data are based on average test results. Minor deviations may occur from case to case.
